

# Recreational

"I'VE BEEN ON THE RIVER WHEN IT WAS SO LOW THAT ALL THE OTHER BOATS WERE PARKED, AND I'VE BEEN ON IT WHEN THE RAPIDS KEPT EVERYONE AWAY... THIS THING'S GREAT!"  
 RON MUNDELL, LAFAYETTE, INDIANA, USA

Whether the surface is water, mud, ice, sand, shallows, sand bars or mud flats, the Hovercraft will get you there. Its uses are as diverse as its users, and include:

- Exploring remote areas
- Fishing anywhere - including on ice
- Sight-seeing
- Racing
- Bird / Wildlife watching
- Cruising
- Hunting
- Accessing water where there is no boat dock

# RESCUE

"MY HOVERTREK-RESCUE KEEPS ME ABOVE THE DANGER, NOT IN IT..."  
 TY WEAVER, CENTERVILLE, VIRGINIA, USA

With its specially buoyant foam and anti-tip hull, the Hovercraft Rescue is a stable work platform, on or off-cushion. Its uses include:

- Victim retrieval over ice, flood water, mud flats, wetlands - bogs, marshes, swift water, shallows, tidal regions, etc.
- Dive team recovery missions
- Flood Patrol assessment and management
- Wildlife retrieval from ice, mud, gold tailings - ponds at mining sites

# Commercial

"...IT'S PAID FOR ITSELF AND IT'S DONE EVERYTHING YOU SAID IT WOULD. IT CARRIES THE PAYLOAD AND GETS THE BAGS OF SHRIMP OUT TO OUR WAITING BOATS."  
 MARK BAN, SALT CREEK INC., GREAT SALT LAKE, UTAH, USA

Its ability to traverse a vast number of surfaces, and to provide a secure, multi-functional work platform, make the Hovercraft a real work horse. To date it has been used for a multitude of tasks such as:

- Military services
- Drug enforcement
- Port Authorities
- Forestation
- Agricultural Spraying
- Mosquito abatement
- T.V. and film companies
- Environmental Testing
- Survey work
- Oil spill clean-up

There is no vehicle comparable to a hovercraft - especially Neoteric's Hovertrek. Confidently, you fly just inches above the ground, gliding over the water or ice to explore shallows, marshes, sand bars, and mud flats - disturbing nothing in areas unreachable by other means. Your perception of work and play are forever changed.

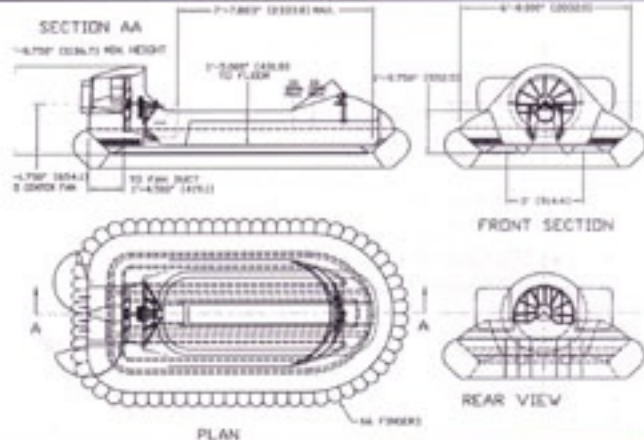

At Neoteric, you don't just buy a versatile sport, wilderness and utility vehicle, but over 40 years of solid research and development, unsurpassed engineering and design, as well as free training from the most experienced drivers in the business. Every Neoteric Hovertrek is made of durable, lightweight, hand-laid fiberglass, and has been aesthetically designed by one of Australia's foremost product designers. Available with patented, computer-controlled reverse thrust for superior maneuverability, and a unique, one-person operated trailer, every craft comes with both lifetime customer support and warranty. And, for those who enjoy putting things together, the Hovertrek is available partially assembled at a substantial savings.

Partially Assembled .....

Fully Assembled .....

## Specifications

- Payload ..... 4 persons
- Forward Speed ..... 35 mph
- Reverse Speed ..... 25 mph
- Length ..... 13' 8" on cushion, 12' off cushion
- Width ..... 8' 4" on cushion, 6' 8" off cushion
- Power ..... 50 hp Fuji engine
